I have reviewed the information below and it appears that this facility currently has outstanding RCRA violation(s). I have contacted PADEP to confirm. However, unless EPA receives new information to the contrary, ER is not authorized to send RCRA waste from the Shiloh Church Road Site to this facility at this time.

I will advise if new information becomes available

Thank you
Chris

We are evaluating the subject facility. It has a long list of violations that need to be sorted thru. Here is a link with compliance status <https://echo.epa.gov/detailed-facility-report?fid=110039581592>

Such does not necessarily make this facility unacceptable to receive CERCLA waste but we need to do some research. We will update as possible.
